## THE PLAYGROUND SLIDE

"LOOK out for me! I am coming lickity-split" down the playground slide. My! what fun all the kiddies are having running up the long steps and sliding—ZIP!—down they go. There are no steps to this slide because the children who slide here do not need them; they know that you will take them up and put them on the slide so they can have all the fun you will have watching them. Make the cut-out and fold it; paste together when you have read the instructions, and see the little folks slide down. Wouldn't it be fun to have a slide of your own and invite all your little friends to come and slide with you?
